

# SAPIN DE NOEL POUR ENFANT

1. Imprimer le patron du sapin et découper chaque forme, le scotcher selon le modèle si dessus puis le dessiné sur de la feutrine de couleur verte

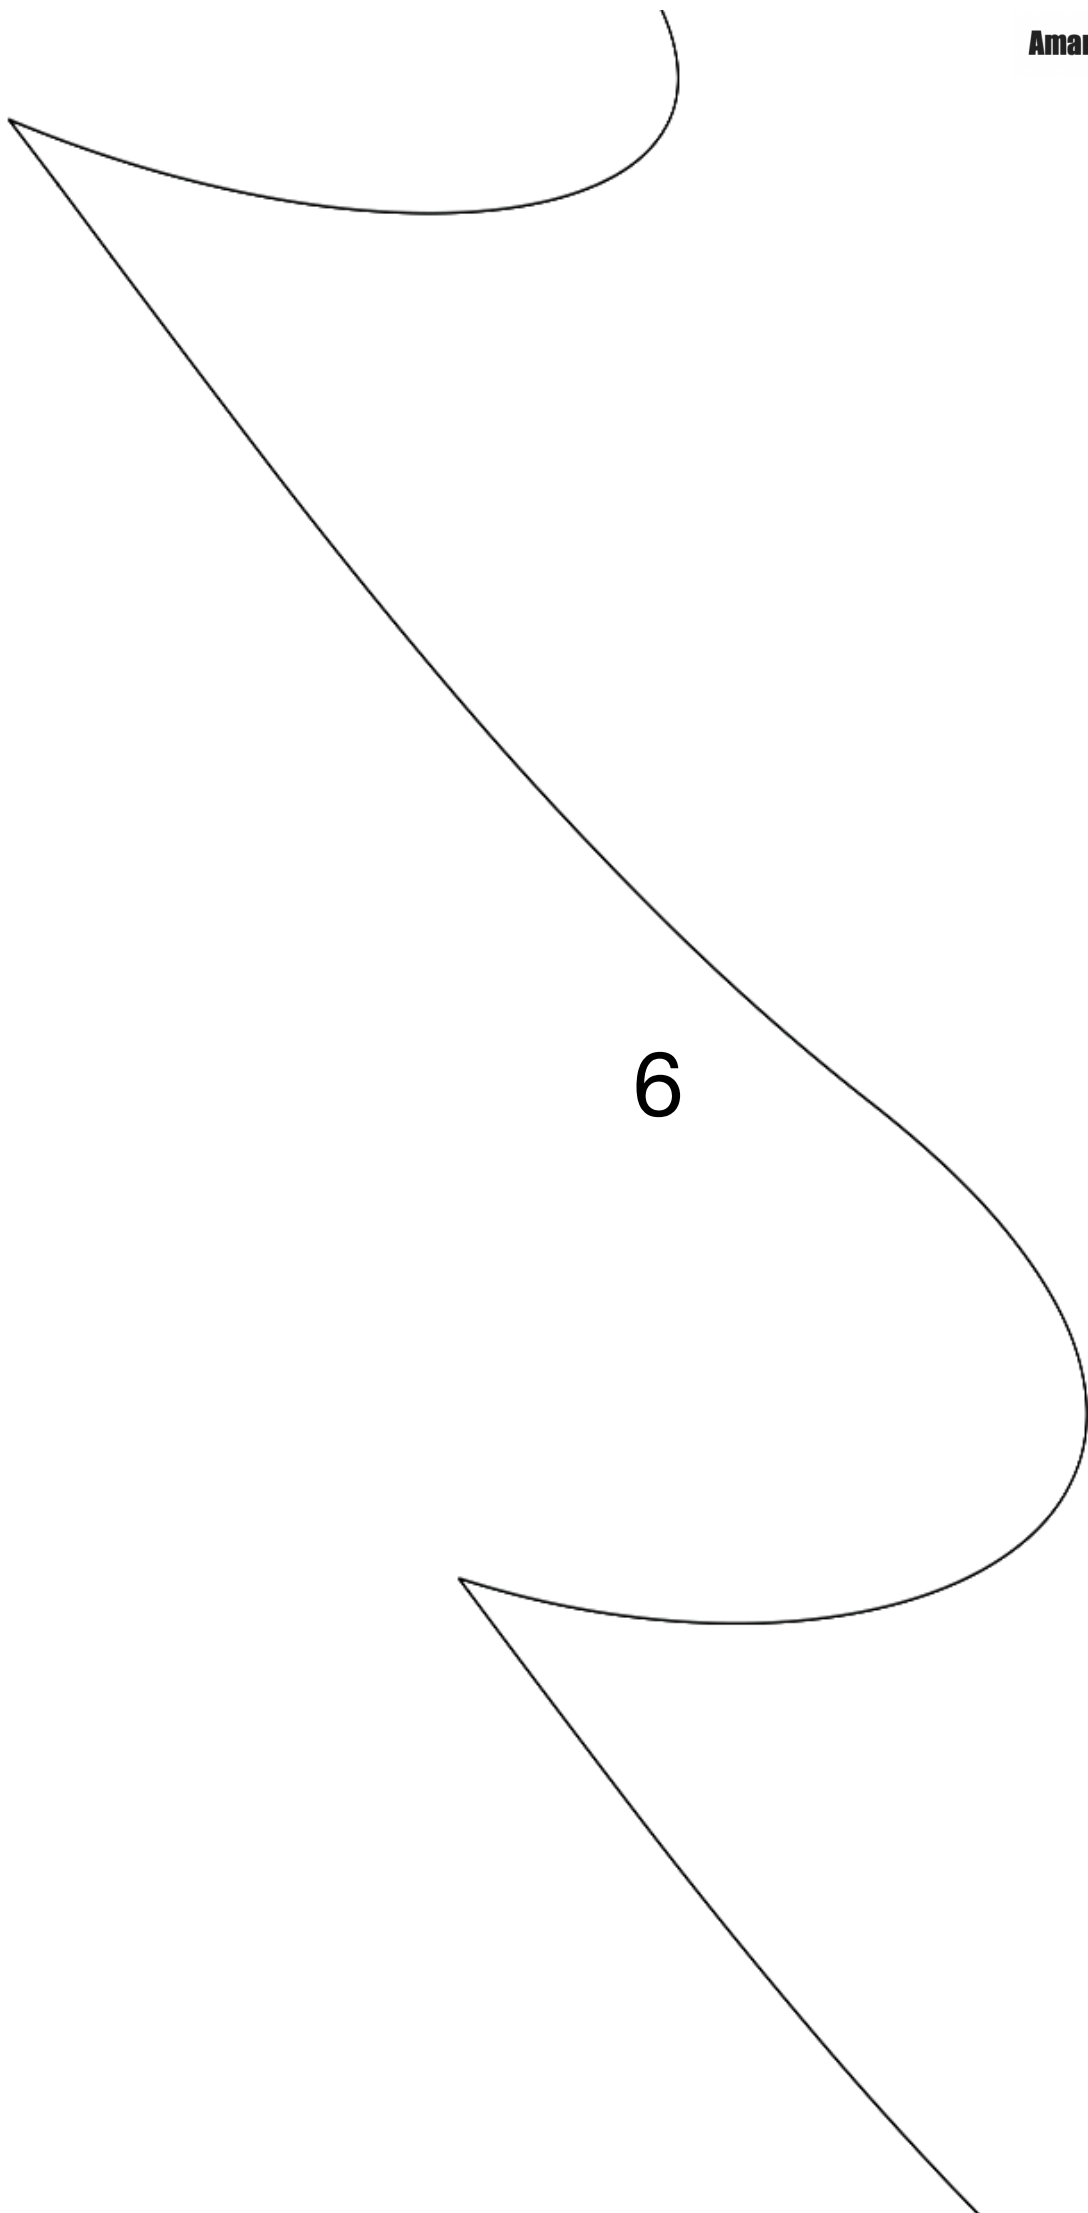

2

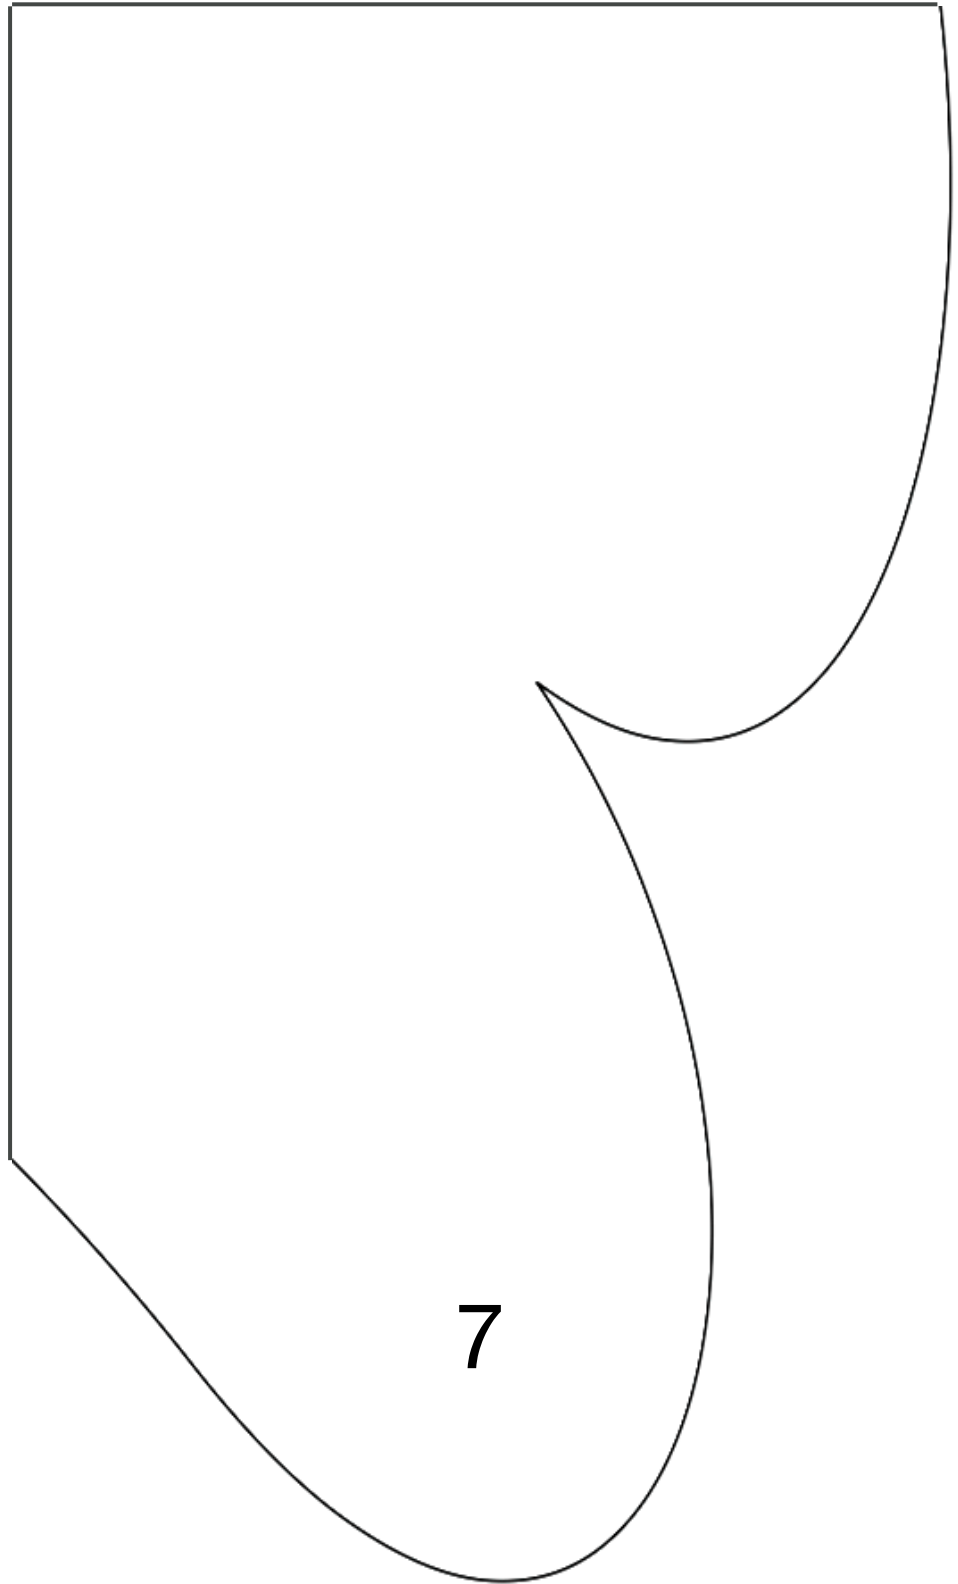

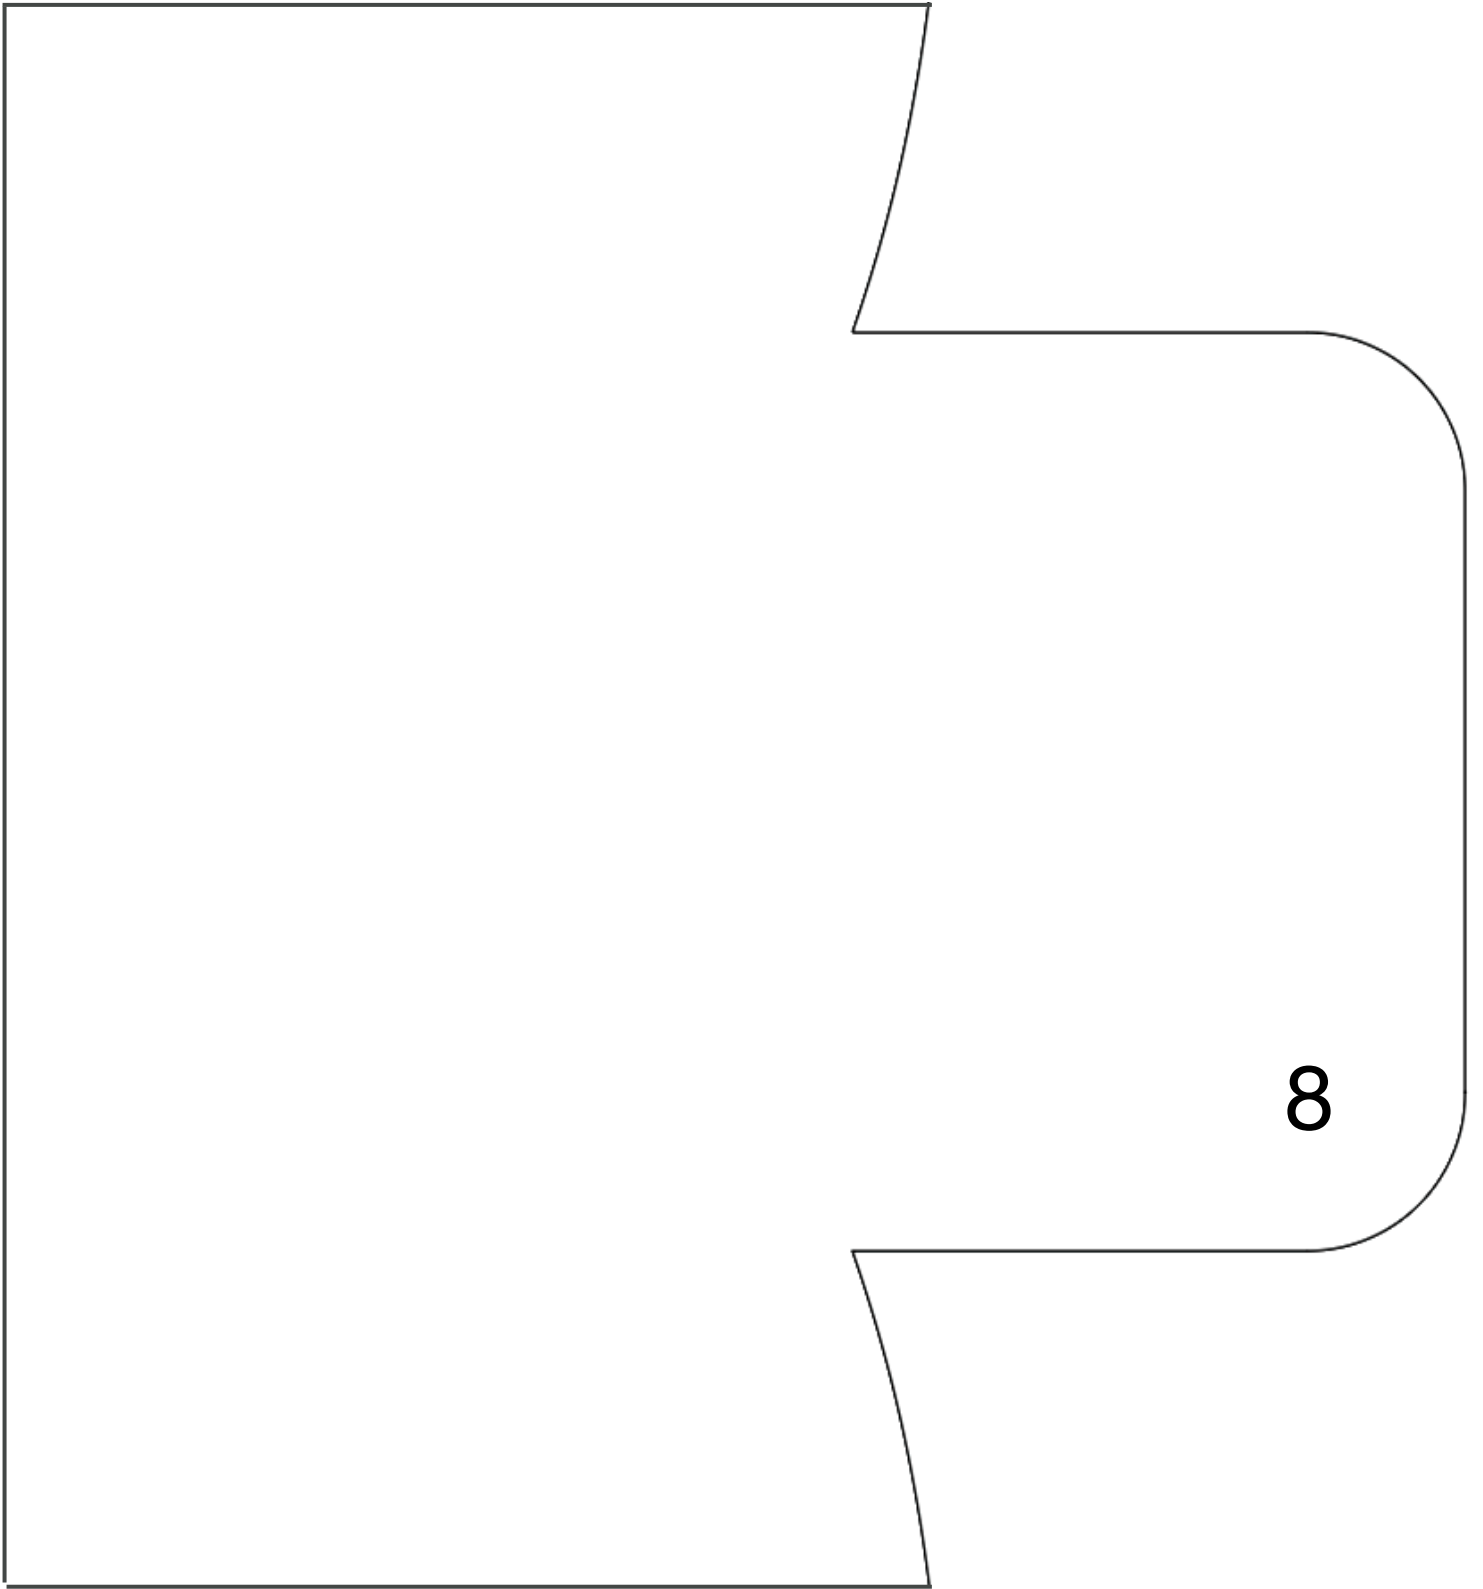

4

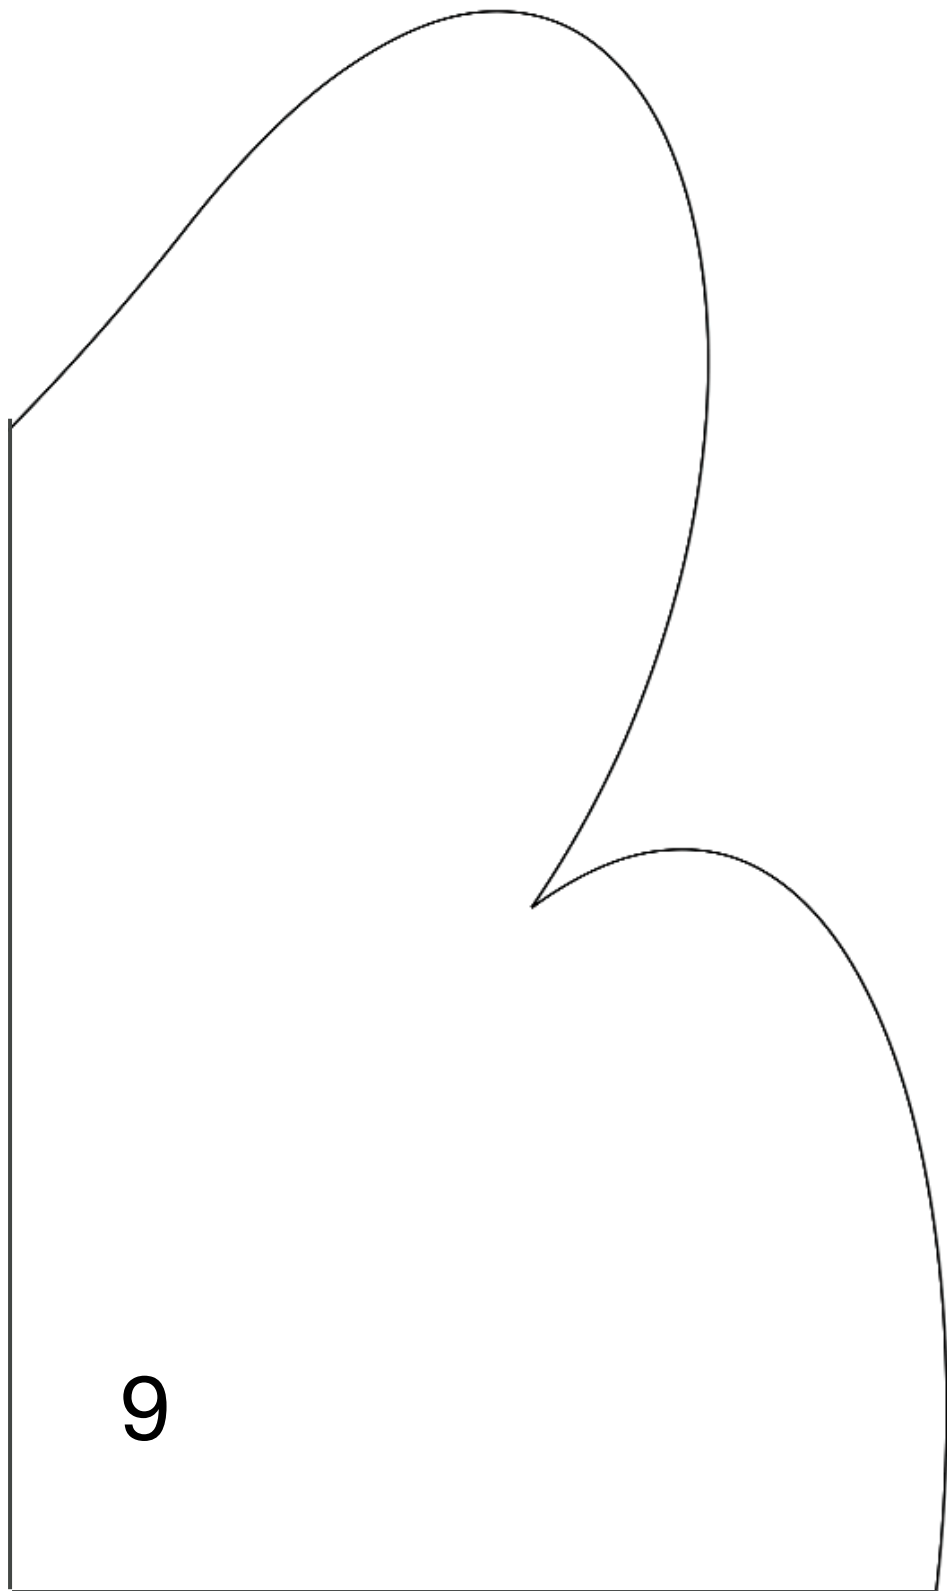

6

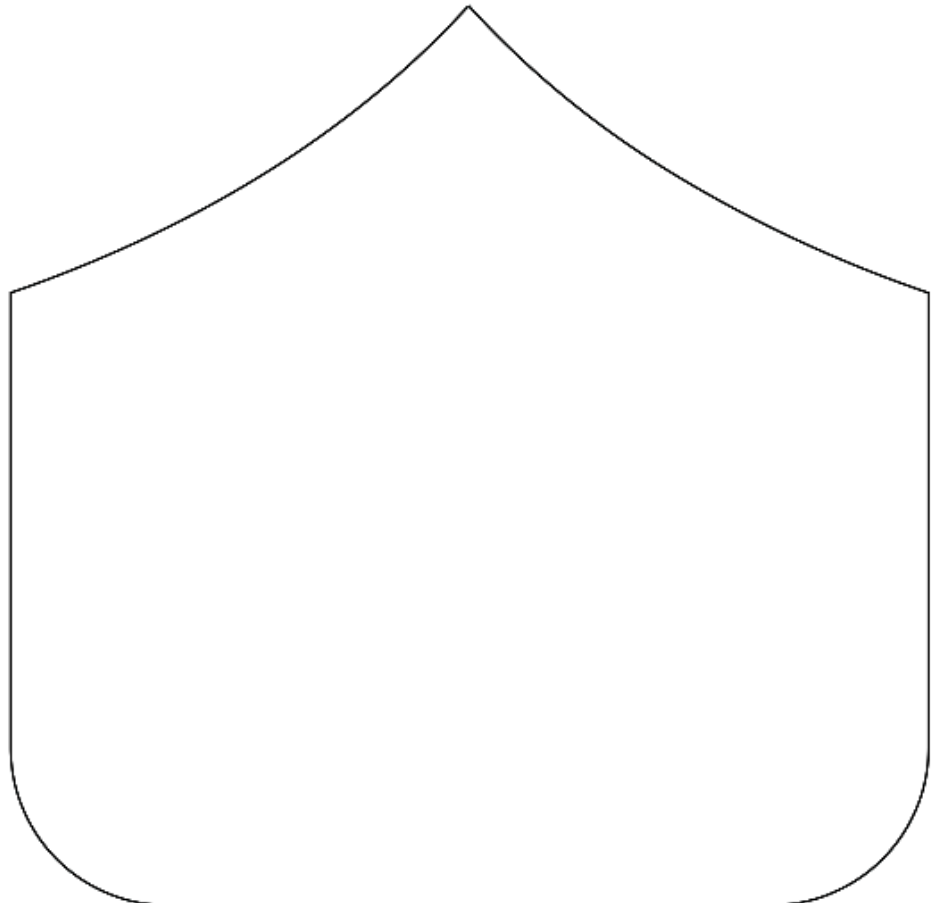

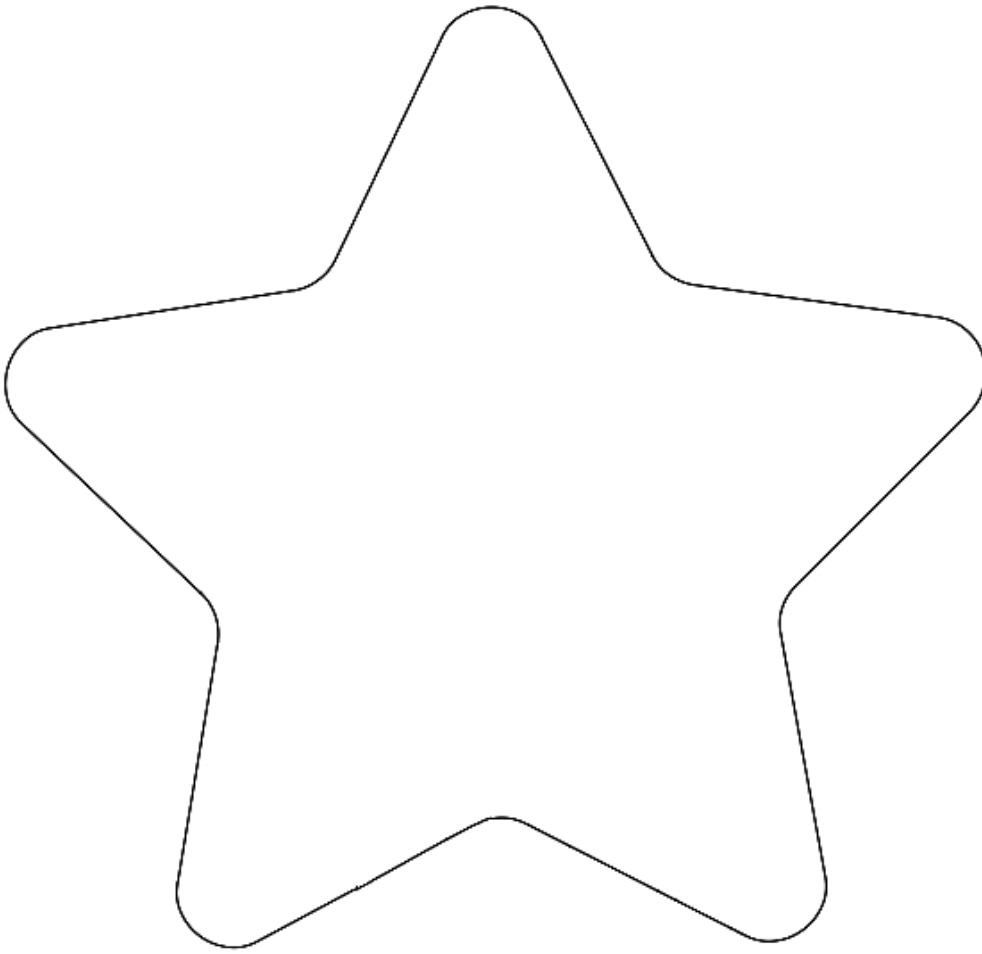

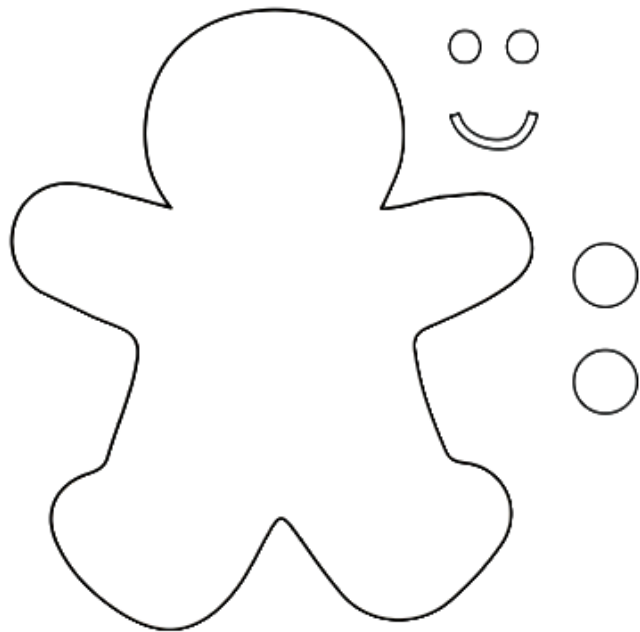

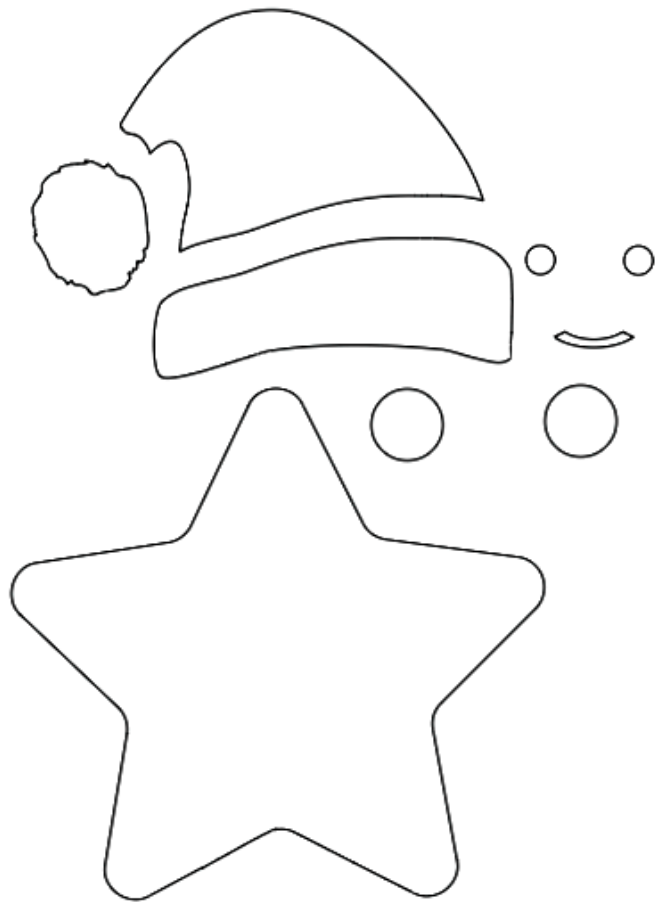

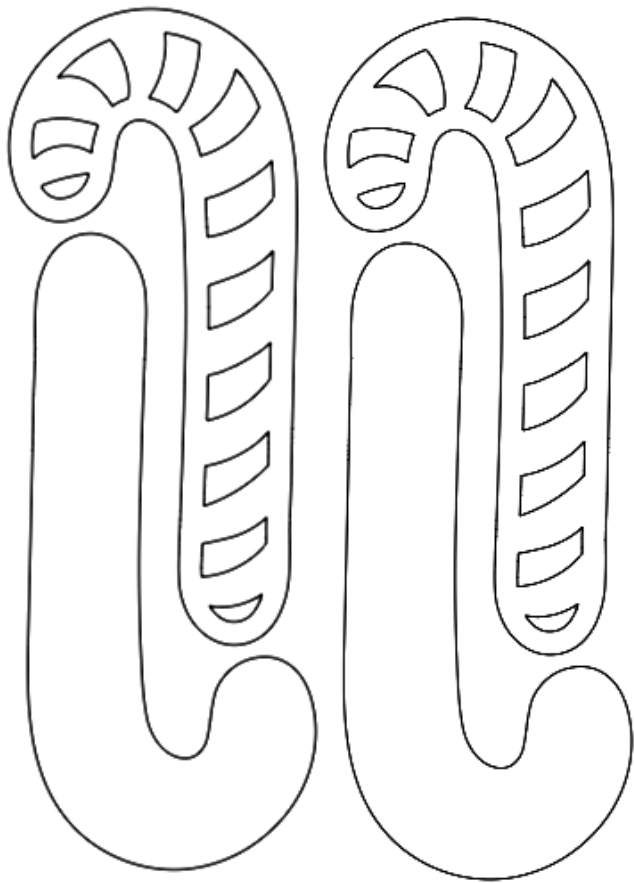

8

9

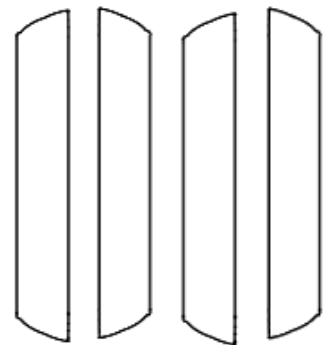

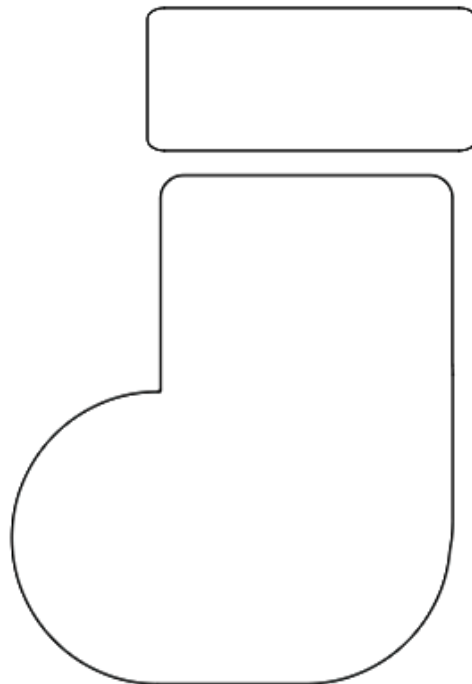

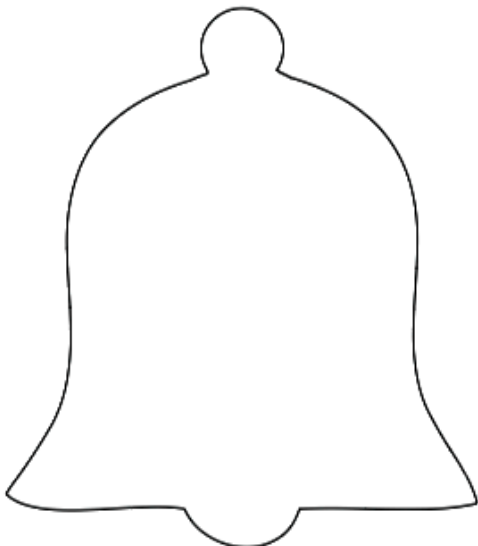

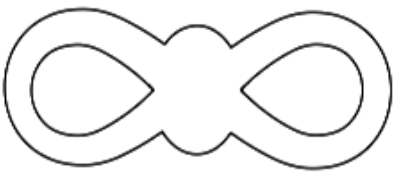

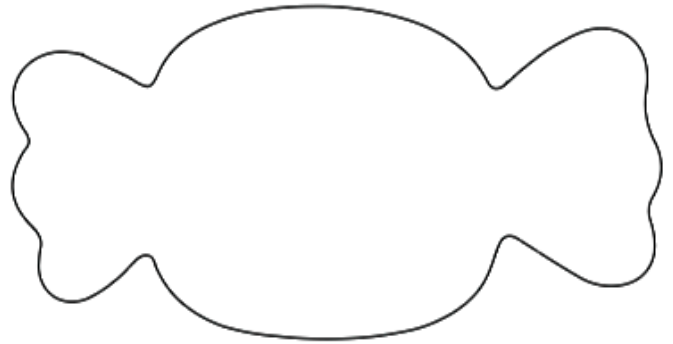

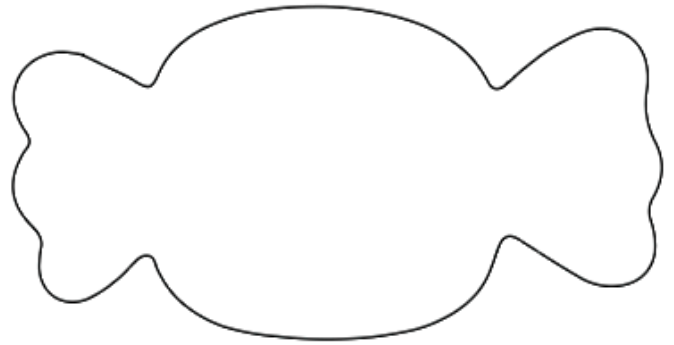

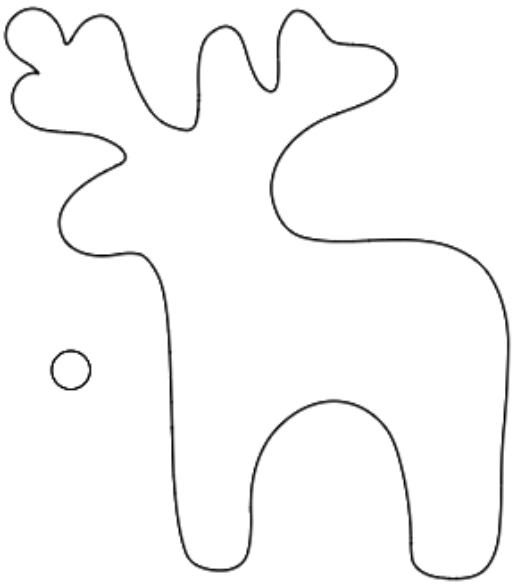

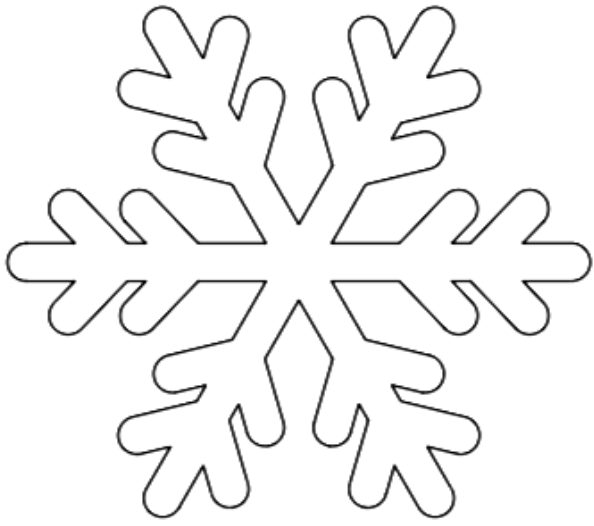

2. Imprimer le patron de l'étoile du sapin et le tronc du sapin puis découper les, le dessiner sur de la feutrine de couleur jaune pour l'étoile et marron pour le tronc

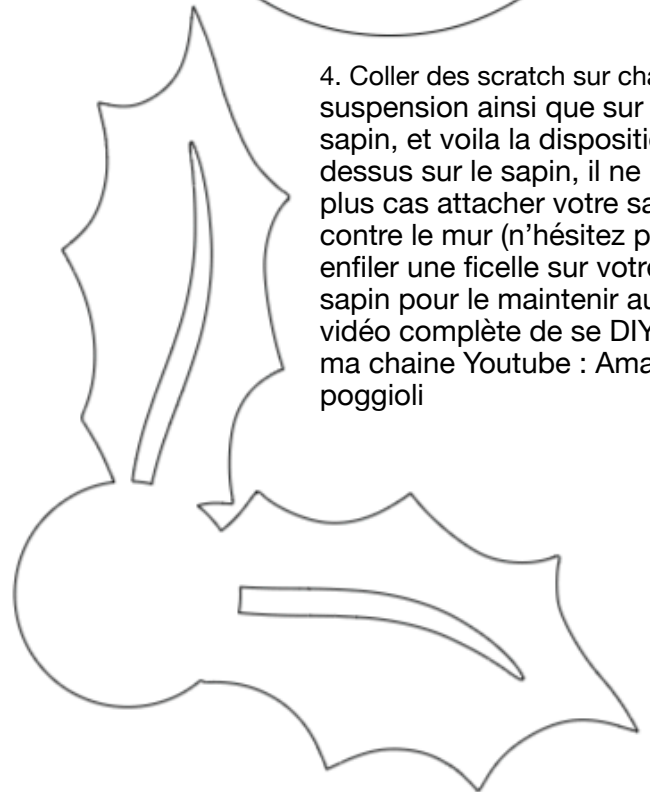

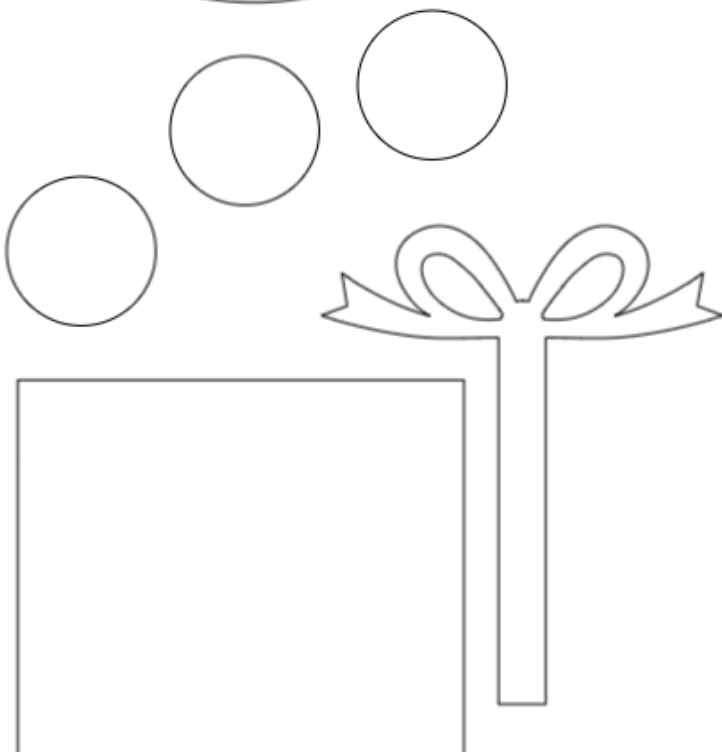

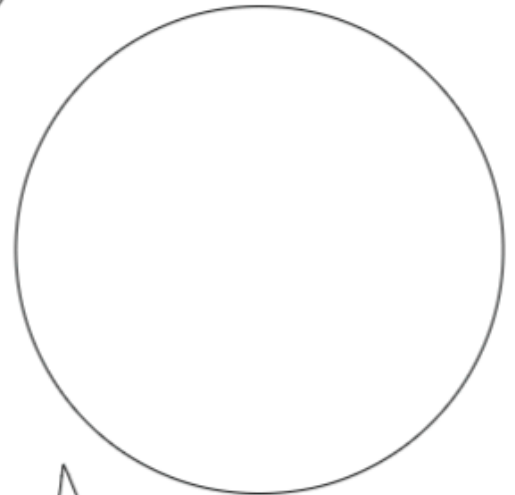

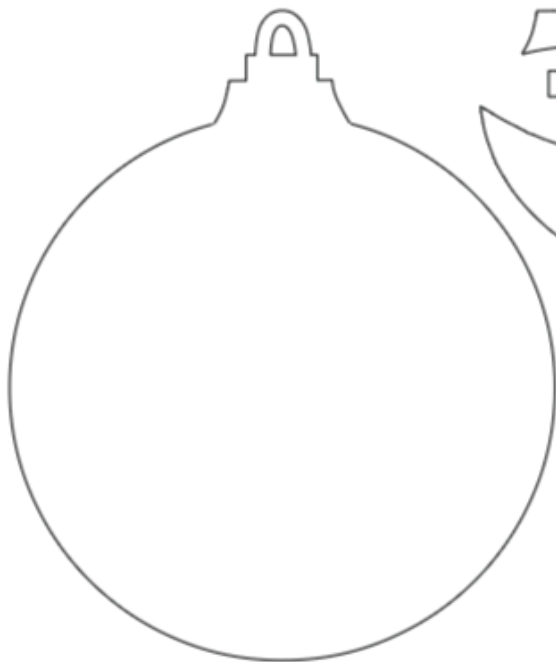

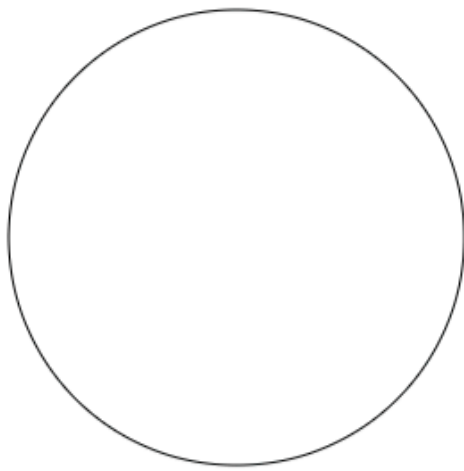

3. imprimer le patron de chaque suspension du sapin puis découper les, le dessiner sur de la feutrine de couleur comme si dessous (modèle pour vous aidez au montage) puis coller les pour les assembler

4. Coller des scratch sur chaque suspension ainsi que sur le sapin, et voila la disposition si dessus sur le sapin, il ne reste plus cas attacher votre sapin contre le mur (n'hésitez pas a enfiler une ficelle sur votre sapin pour le maintenir au mur) vidéo complète de se DIY sur ma chaine Youtube : Amandine poggioli
